STUDENT MEDICATION REQUEST

Note:

Where possible student medication should be self-administered by the student or be administered by parents at home at times other than school hours. If the Principal of the school is to approve staff administering or supervising the administration of medication to a student, then the following requirements must be met.

The doctor prescribing the drug must be aware that the school will supervise or carry out administration of the medication on the instructions provided within the constraints of other duties and without medical knowledge. It is therefore necessary that the doctor provide instructions – as per “Medical Instructions from Prescribing Doctor”. These instructions are a mandatory requirement and are necessary when the school staff agree to administer the drug, supervise the administration of the drug, or monitor the student after drug administration.

Drugs for administration should be delivered to the school office by a parent or care giver into the care of a staff member. The school will prepare a student medication record and store the drugs in a secure place. All drugs should be contained in properly labelled containers showing the name of the drug, the name of the student and the appropriate dose and frequency and the expiry date of the medication.

PLEASE PRINT

Name of parent/guardian/carer _____

Name of student _____

Year & Class _____

Name of prescribing doctor _____

Medical condition being treated _____

Name of drug _____ Dose _____

Time to be taken _____
